

3D TECHNICAL ARTIST · HARD SURFACE & PRODUCTION

3D artist specializing in Hard Surface modeling and packaging, with experience in production and workflow optimization. I combine modeling precision, Geometry Nodes, asset library management, and task automation to scale production capacity without compromising quality control.

SPECIALTIES

- Hard Surface Modeling
- Packaging & Product Assets
- 3D Production
- Geometry Nodes
- UV Mapping & Retopology
- Procedural Materials
- Asset Libraries
- Rendering
- Quality Control & Delivery

KEY HIGHLIGHTS

7+ years

3D professional experience

1.500+

3D models created

15+ years

audiovisual experience

EDUCATION

Bachelor's Degree in Audiovisual Communication

Universitat Pompeu Fabra
Interactive Specialty
2014 — 2018

VALUE I BRING

PRODUCTION

I analyze requirements, outline the strategy, estimate effort, organize assets, and oversee delivery.

PRECISION

I work with real measurements, blueprints, references, and CAD, aiming for clean and optimized meshes for end use.

SCALABILITY

I identify repetitive patterns and turn them into parametric systems or reusable tools.

LIBRARIES

I have built and maintained an in-house library of over 1,500 packaging models to accelerate new projects.

QUALITY

I review the technical and visual results prior to delivery and maintain an asset structure ready for reuse.

SOFTWARE

Blender Geometry Nodes Maya GIMP Photoshop
Unreal Engine Godot Unity DaVinci Resolve Illustrator
ZBrush 3ds Max Substance Painter Krita

WORK EXPERIENCE

OVIO

MAR 2025 — JUL 2026

Netherlands

3D Production Lead

- 3D packaging production for international clients, combining modeling, technical review, and asset delivery.
- Project planning: complexity assessment, time estimation, prioritization, and delivery tracking.
- Workflow optimization through asset reuse, parameterization, and internal tools to reduce repetitive tasks.
- Quality control and management of a production-ready model library.

3D CLICK

SEP 2019 — MAR 2025

Barcelona, Spain

3D Modeler

- Hard Surface modeling and packaging to exact measurements, interpreting blueprints, visual references, and CAD files.
- Retopology and mesh optimization for web configurators, maintaining precision and keeping file weight under control.
- Progressive build-up of a library featuring over 1,500 packaging models and reusable components.
- Desarrollo de generadores paramétricos con Geometry Nodes para vasos, bolsas, doypacks, pillow bags, latas, botes, cajas, botellas y tapones.
- Creation of tools and automations for UVs, asset management, exporting, and other recurring production tasks.

AUDIOVISUAL + IT EXPERIENCE

Before specializing in 3D, I worked for over 15 years in photography, shooting, and post-production. This background gives me a solid understanding of framing, lighting, product presentation, and visual language.

TECHBUDDY

NOV 2018 — SEP 2019

IT & Tech Support Technician

Barcelona, Spain

- Technical support and troubleshooting for hardware, software, and devices.

BGRIS FACTORY

JUN 2014 — DIC 2017

Co-Founder · Audiovisual

Barcelona, Spain

- Photography, video recording, and post-production for audiovisual and product projects.

FREELANCE

Freelance Filmmaker

2008 — 2014

Photography, video recording, and post-production.

Audiovisual Department · LA LEGIÓN MAGAZINE

Audiovisual Production

2008 — 2012

Photography, video recording, and post-production.

PORTFOLIO

n4k3z.github.io/web

Extended portfolio featuring work methodology, projects, tools, and production examples.
